

**BLANCO COUNTY
SUBDIVISION
REGULATIONS**

**APPROVED AND ADOPTED
BY
THE BLANCO COUNTY
COMMISSIONERS COURT**

JANUARY 27, 2004

REVISED

**March 8, 2005
February 9, 2016
February 23, 2016**

**BLANCO COUNTY SUBDIVISION REGULATIONS
REVISIONS PAGE**

Revision Date: March 8, 2005

Revision to (pg 1) – correct page number for Roadways

Revision to (pg 1) – correct page number for Other Provisions

Revision to (pg 3) – add paragraph 6 “Water availability regulations...”

Revision to (pg 7) – item 8 – delete the following text “each of the resulting tracts meets the lot size and frontage requirements of these Regulations”

Revision to (pg 7) – item 9 – delete the following text “each of the resulting tracts meets the lot size and frontage requirements of these Regulations”

Revision to (pg 8) – add “The Water Availability Studies are required with submission of the preliminary plat”.

Revision to (pg 11) – item 2 – delete the following text “on platted lots or tracts of less than 25 acres that do not otherwise qualify” and add the following text “if applicable”.

Revision to (pg 12) – Design Standards, Lots – delete all language

Revision to (pg 12) – Design Standards, Lots – insert new language based on County OSSF regulations.

Revision to (pg 13) – Utility Easements – delete the following text “In general, the rear easement...two (2) feet from the water main”.

Revision to (pg 13) – Utility Easements – delete the following text “Dedicated easements shall be...must be maintained at all times”.

Revision to (pg 13) – Drainage Easements – delete the following text “ In subdivisions entirely containing ‘acreage tracts’ of five (5) acres or more in size, an easement will be accepted”.

Revision Date: February 9, 2016

Revision to (pg 37 & 38) – Appendix L, Revision to Plat

Revision Date: February 23, 2016

Revision to (pg 11) – Item 7 – the following language was added “This plat has been filed as an exception to the Blanco County Subdivision Regulations as provided under ***Excluded Transactions, Item 5*** and is to be used for addressing, appraisal, and general information only. The Blanco County Commissioners Court has not approved this plat and does not attest to its accuracy. It is not to be considered for reliance. Blanco County is not liable for misuse or misinterpretation of any data on this plat.”

**BLANCO COUNTY, TEXAS
SUBDIVISION REGULATIONS**

REGULATING THE FILING FOR RECORD OF SUBDIVISION PLATS AND OTHER REQUIREMENTS PERTINENT THERETO AND ESTABLISHING CONSTRUCTION STANDARDS FOR ALL SUBDIVISIONS SITUATED OUTSIDE THE BOUNDARIES OF ANY INCORPORATED CITY IN BLANCO COUNTY, TEXAS.

THE STATE OF TEXAS, COUNTY OF BLANCO IN COMMISSIONERS COURT OF BLANCO COUNTY, TEXAS, JANUARY 27, 2004,

WHEREAS: Blanco County has established standards and specifications for construction of roads and drainage, private sewage facilities and development within the floodplain, and

WHEREAS: Chapters 232 and 233, Texas Local Government Code, empower the County to enact subdivision rules and regulations and to provide for its administration, enforcement, and amendment, and

WHEREAS: The County Commissioners Court empowered with the authority to formulate such rules and regulations by Chapter 232, and the Commissioners Court has favorably received and voted on these rules, recommend that these regulations be adopted,

NOW, THEREFORE, BE IT ORDERED BY THE COMMISSIONERS COURT OF BLANCO COUNTY, TEXAS, AS FOLLOWS:

GENERAL PROVISIONS

Every owner (hereinafter called "Subdivider") of any tract of land situated outside the corporate limits of any city in Blanco County, Texas, who may hereafter divide the same in two (2) or more parts for laying out lots for the purpose of laying out streets, alleys, or parks or other portions intended for public use shall cause a plat to be made thereof which shall accurately describe all of said subdivision or addition by metes and bounds and locate the same with respect to an original corner of the original survey of which it is a part, giving the dimensions of all lots, streets, or other portions intended to be dedicated to public use or for the use of purchasers or owners of lots. Said map or plat, shall be prepared in compliance with these regulations and with the subdivision statutes of the State of Texas and shall be submitted to the Commissioners Court for approval prior to filing with County Clerk.

In areas within the City Limits and Extraterritorial Jurisdiction (ETJ) of the Cities of Blanco County, the provisions are as follows:

- a. property located 100% within the City Limits and/or ETJ of the Cities of Johnson City and Blanco are under exclusive jurisdiction of said Cities in accordance with interlocal agreements signed with Blanco County.
- b. property located both within the City Limits and/or ETJ of the Cities of Johnson City and Blanco, and also located in Blanco County, are subject to separate Regulations; the property located in the ETJ is under jurisdiction of the City and the property located in the County is under jurisdiction of the County.
- c. property located in the City and/or ETJ of the Town of Round Mountain is subject to the most stringent subdivision regulations of the Town of Round Mountain or Blanco County.

In the event that the proposed subdivision is a revision of a recorded plat, the Subdivider will be required to meet the requirements of these Regulations for revisions, as well as these specifications. An existing subdivision plat may be vacated by the owners thereof in conformance with these Regulations and Section 232.008 or 232.0085 of the Texas Local Government Code and upon approval by the Commissioners Court.

With the inception of these Regulations, no permit shall be issued by Blanco County for the installation of septic systems on any lot in a subdivision for which a final plat has not been approved and filed for record, or on any lot in a subdivision in which the standards contained herein or referred to herein have not been complied with in full.

Water Availability Regulations apply to all applications for approval of a plat for a Subdivision wholly or partially within Blanco County, Texas except when platting is exempt from the subdivision regulations (see excluded transactions).

Blanco County shall not repair, maintain, install, or provide any streets or roads in any subdivision for which a final plat has not been approved and filed for record, nor in which the standards contained herein or referred to herein have not been complied with in full, nor shall Blanco County repair, maintain, or install any streets or roads until such time as the roads or streets have been accepted by the Commissioners Court.

LEGAL PROVISIONS

ENFORCEMENT

The Commissioners Court of Blanco County shall have the authority to refuse to approve or authorize any map or plat of any such subdivisions, unless such map or plat meets the full requirements as set forth in these Subdivision Regulations; and there is submitted at the time of approval of such map or plat financial security as may be required by these Regulations. No lot in any subdivision shall be sold or transferred until the final plat is

approved and recorded, and all the standards, specifications or requirements contained or referred to herein have been complied with in full. On behalf of Blanco County, the County Attorney or other attorney may, when directed by the Commissioners Court, institute appropriate action in a court of competent jurisdiction to enforce the provisions of this Order or the standards referred to herein with respect to any violation thereon which occurs within Blanco County's jurisdiction.

Conflicting Orders. If any other County Order is in conflict with this Order, the most stringent rules will apply. Nothing will be permitted under the provisions of this Order that is in violation with another valid Order of the County.

Severability Clause. If any provisions of this Order or the application thereof, to any person or circumstance is held invalid, the remainder of the Order and the application of such provision to their persons or circumstances shall not be affected thereby.

Penalty for Violation. The Commissioners Court of Blanco County will cause an employee of the Court or any other person or persons it so designates to review periodically those deeds or sales contracts being recorded in the County Clerk's Office to see that any subdivisions affected thereby shall comply with requirements of Chapters 232 and 233 of the Texas Local Government Code.

If deeds, contracts of sale, transfers of title, or other transactions do not comply with the plat requirements as set forth in this Order and in the State Statutes, the Commissioners Court of Blanco County or its' representative can so notify the party selling or transferring title in whole or in part to comply with the said requirements.

In the event the said notified party refuses to comply with the requirements of the State Statutes, the Commissioners Court can take appropriate action to obtain compliance. Any party violating any provisions of this Order shall be guilty of a Class B Misdemeanor or current Statute and each act of the violation shall constitute a separate offense.

VARIANCE

In approving a variance, the Commissioners Court shall prescribe only conditions that it deems necessary or desirable to the public interest. In making their findings, the Commissioners Court shall take into account the nature of the proposed use of the land involved and existing uses of the proposed subdivision and the probable effect of such variances upon traffic conditions and upon the public health, safety, convenience, and welfare in the vicinity. No variance shall be granted unless the Commissioners Court finds:

1. That there are special circumstances or conditions affecting the land involved such that the strict application of this Order would deprive the applicant of the reasonable use of his land, and,

2. That the granting of the variance will not be detrimental to the public health, safety, or welfare, or injurious to other property in the area, and,
3. That the granting of the variance will not have the effect of preventing the orderly subdivision of other land in the area in accordance with the provisions of this Order.

Such findings of the Commissioners Court, together with the specified facts upon which such findings are based, shall be incorporated into the official minutes of the meeting at which the variance is granted. Variances may be granted only when in harmony with the general purposes of intent of the Order so that the public health, safety, and welfare may be secured and substantial justice done. Pecuniary hardship to the Subdivider, standing alone shall not be deemed to constitute hardship. No Variance shall be granted as to required improvements.

BOND REQUIREMENTS

Security Bond: The plat shall not be approved or recorded unless the subdivider has filed with the Commissioners Court a bond or other surety executed by a surety company holding a license to do business in the State of Texas, made payable to the County Judge of Blanco County, Texas, or his successor in office, and acceptable to the County, in an amount equal to the cost of the roads and drainage improvements and other improvements where applicable required by these Regulations as estimated by the design Engineer and approved by the County, conditioned that the subdivider will complete such improvements within one year after approval of such plat, such bond being payable for eighteen (18) months and to be approved by the County Commissioners Court. Should there be any deficiency or variance from the requirements herein or should the work not be completed within the stated time, the County will notify the subdivider of such departure by certified mail. Should the condition not be corrected within thirty (30) days following receipt of notice, the County may declare the surety forfeited and order construction operations suspended. The County reserves the right to complete the work by means most advantageous to its organization and citizens, utilizing such portion of the surety as may be necessary to accomplish such completion. In the event progress and final inspections indicate no departure from the requirements herein, the designated representative of the County will certify completion in accordance with the requirements of the Commissioners Court and the Court will consider release of the surety. The surety bond shall remain in effect until all roads, drainage improvements and other applicable improvements have been approved by the Commissioners Court, and the bond has been released by order of the Commissioners Court. **It is the responsibility of the subdivider to advise the court of the status of construction prior to expiration of the one (1) year construction period as is stated above.**

Maintenance Bond: Before release of the security bond, and to insure the roads, drainage improvements and other applicable improvements are maintained to the satisfaction of the County, the subdivider shall furnish the County a maintenance bond, executed by a surety company holding a license to do business in the State of Texas,

made payable to the County Judge of Blanco County, Texas, or his successor in office, such bond being payable for twenty-four (24) months and to be approved by the Commissioners Court, in an amount equal to twenty-five (25) percent of the actual cost of the roads, drainage improvements and other applicable improvements required to be constructed in said subdivision and approved by the County, conditioned that upon completion thereof, and upon approval of same by the Commissioners Court, the subdivider will maintain the streets, drainage improvements, etc., in good condition at his expense for a period of at least two (2) years after date of approval of the completed construction by the Commissioners Court and until final acceptance thereof by the Commissioners Court. The Commissioners Court shall not accept such roads and improvements on behalf of the County for a period of at least two (2) years after such proper completion, and not then unless and until the Precinct Commissioner again certifies that they have been maintained in good condition for said period of two (2) years and are in good condition at such time. The County shall accept such roads and drainage improvements only upon motion duly passed at a regular or legally called special meeting of the Commissioners Court, and the subdivider shall remain responsible for the maintenance of such improvements until legally accepted by the County. Maintenance of roads shall include such items as drainage by others, spilled concrete, mud and debris on roads, damage from unknown springs, pumping, unraveling, etc. Maintenance of the drainage improvements shall include removing debris, re-sodding eroded areas and the installation of additional concrete riprap where designated by the County to permanently prevent erosion.

Security Bond Extension: Where good cause exists, the County may extend the period of time for completion for an additional period of time not to exceed six (6) months if the subdivider has not completed the required improvements or completed such improvements in compliance with these Regulations. No such extension shall be granted unless the subdivider provides additional security to cover the extended period of time.

Irrevocable Letter of Credit (in lieu of Bond): An Irrevocable Letter of Credit may be submitted in lieu of bonds for the purpose of insuring a subdivider's obligation to construct and maintain the roads, drainage improvements and other applicable improvements in a subdivision. Irrevocable Letters of Credit in lieu of Bonds are required under the same conditions as Security and Maintenance Bonds.

Other Security: Any type of security for construction and maintenance other than Bonds and Irrevocable Letters of Credit shall be by written request to Blanco County, and must first be approved by Commissioners Court.

EXCLUDED TRANSACTIONS

The division of a tract or tracts of land into two (2) parcels within a two (2) year period by the same or different owners shall not be considered a subdivision as defined in these Regulations. The following types of transactions will not be considered a subdivision as defined in these Regulations, however, this list is not to be considered exclusive of

similar transactions and it is in addition to the general rules set out in these Regulations, to-wit:

1. Intra family transfers.
2. Boundary line transaction.
3. Court ordered partitions.
4. Partitions between husband and wife, partners, stockholders of a corporation, and other types of joint tenants.
5. Tracts over twenty-five (25) acres in size regardless of number of tracts created (see Final Plat Additions, #7, page 11).
6. Transfer of rights-of-way or easements.
7. The owner of the land is a political subdivision of the state, the land is situated in a floodplain, and the lots are sold to adjacent landowners.
8. The tract is devised or given by a testator or donor to an individual who is related to the testator or donor within the third degree of consanguinity or affinity, and provided, however this exception does not apply if the division will change the boundary between two legally platted lots, or subtract land from a legally platted subdivision.
9. The land being divided is inherited property between heirs or is land being divided between donees who have acquired title by gift deed, the property is being divided by agreement or by action in probate, and the heirs or donees are related to the testator or donor within the third degree of consanguinity of affinity; provided however, this exception does not apply if the division will change the boundary between two legally platted lots, or subtract land from a legally platted subdivision.
10. A smaller tract is surveyed out of the parent tract solely for the purpose of obtaining financing of that part of the property, provided that possession and primary beneficial ownership of the entire parent tract are intended to remain unified.

PLATTING PROCEDURES

The following procedures shall be followed in the process of review and approval of all subdivision plats by the Blanco County Commissioners Court:

Subdivision plats shall be submitted to the Commissioners Court for review and approval on two (2) readings before they may be recorded with the County Clerk. All subdivisions shall be submitted for Second Reading (Record Plat) within one (1) year after the date of First Reading (Preliminary Plat) approval.

It shall be required that the Subdivider meet with the Commissioner in whose precinct the proposed subdivision is located to review the plat prior to any consideration of the Commissioners Court. The request for said meeting shall be made of the Commissioner a minimum of thirty (30) days prior to the request for Commissioners Court action. Only

the Commissioner in whose Precinct the subdivision is located or the County Judge can request both readings be placed on the Commissioners Court meeting agenda for consideration.

All submissions of information required herein shall be made a minimum of thirty (30) calendar days prior to the date of the Commissioners Court meeting at which action is being requested. The Water Availability Studies are required with submission of the preliminary plat. The information will be deemed to have been submitted when it is delivered to the Office of the County Judge. Ten (10) copies of the plat and one copy of all other required information shall be submitted.

All submissions shall be accompanied by a Letter of Transmittal which shall include the name, address and telephone number of the person who will be representing the request before the Commissioners Court, and stating what action is being requested.

PRELIMINARY PLAT
(First Reading)

The Subdivider shall cause to have prepared a Preliminary Plat of the proposed subdivision which shall show (See Checklist, Appendix A):

1. Typical lot dimensions.
2. Street right-of way widths.
3. Areas for recreational use, such as parks or green belts.
4. Transfer of rights-of way or easements.
5. Proposed land use of all lots being subdivided.
6. Provide Volume, Page, Reference, and Names of all Owners of the property surrounding the proposed subdivision.
7. Land use of all contiguous tracts, i.e. undeveloped, subdivided, etc.
8. All major topographic features such as rivers, creeks, bluffs, etc. on or adjacent to the property as well as elevation contours at no greater than twenty (20') foot intervals.
9. Areas of Special Flood Hazard as shown by the current Flood Hazard Boundary Maps as authorized by FEMA. In cases where no maps exist, contact the Blanco County Flood Plain Administrator. Each tract shall be inspected and flood plain determination made on its own merits.
10. Master Development Plan. (If subdivision is portion of a larger tract of land, exterior boundary of the parent tract shall be shown on the Preliminary Plat and future plans for the remaining property noted.) If the parent tract is larger than 320 acres, the Preliminary Plat may be prepared at a scale no smaller than one (1") inch equals one thousand (1000') feet, with the area proposed to be subdivided detailed at a scale no smaller than one inch equals two hundred feet (1"=200').
11. North arrow.

12. Location map showing the location of the proposed subdivision in relation to major roads, towns, cities, and topographic features.
13. Name and address of the owner on the property, plus Page, Volume, and Reference.
14. Name and address of Developer.
15. Total acreage within the proposed subdivision.
16. Total number of lots.
17. Total area within road rights-of-way and length of roads.
18. Statement as to the jurisdiction with responsibility for the maintenance of roads within the subdivision.
19. Name of proposed subdivision, said name shall not conflict in spelling, pronunciation, or in any way with the name of any other subdivision within Blanco County, unless the proposed subdivision is contiguous to an existing subdivision and is an additional phase of that development.
20. Names of roadways, said names shall not duplicate any other streets within Blanco County unless they are extensions of said streets, and comply with requirements of 9-1-1 addressing regulations.
21. Location of all wells, water, oil and natural gas, where applicable, and a statement that all unused wells are capped or plugged.

All fees related to the filing of a plat shall be paid to the County Clerk before submission of the Preliminary Plat to the County Judge's office for review. Fees are as follows:

Filing Fee per plat up to five (5) pages	\$ 125.00
Each additional page	\$ 25.00
Each lot	\$ 5.00
Records Preservation Fee (per plat)	\$ 5.00
Courthouse Security Fee (per plat)	\$ 1.00
Hydrological review of Water Availability by qualified expert (per plat)	\$ 500.00

Additional fees may be required under the Blanco County On-Site Sewage Facility Regulations and are payable to Blanco County OSSF.

RECORD PLAT
(Second Reading)

Upon approval of the Preliminary Plat, the Subdivider shall revise the plat in accordance with the requirements and recommendations of the Commissioners Court and shall cause to be prepared a Final Plat of the proposed subdivision, an original and ten (10) copies of which shall be supplied to the Court for distribution, such plat having incorporated any changes. These ten (1) copies consist of 3 Mylar printed in black ink on white material and 7 Blue Line. Distribution is as follows: one (1) signed copy to the Clerk of the Court, one (1) signed copy to the Appraisal District and eight (8) copies to the Courts' designee, who will deliver one (1) copy to each of the following: the 9-1-1 Coordinator, the OSSF Inspector, and the Commissioner in whose Precinct the Subdivision lies. The remaining copies will be filed for future reference. The Final Plat shall contain all information required herein for the Preliminary Plat as well as the following: (see Checklist, Appendix B)

1. All information required for the Preliminary Plat.
2. Name of proposed subdivision.
3. Lot and block numbers.
4. Proposed street names which shall not duplicate the name of any existing street unless the proposed street is an extension thereof. Street names shall be pre-approved by the 9-1-1 Coordinator. Location of street addresses will be furnished by Blanco County in accordance with 9-1-1 regulations.
5. Acreage, to two decimal points, of all lots and tracts.
6. Name and address of the surveyor and/or engineer.
7. Location and size of all proposed drainage structures.
8. Location, size, and proposed use of all easements required for the proper drainage and/or utility service.
9. Boundaries of incorporated city limits and/or ETJs and a statement that "This property is/is not located within the municipal limits or ETJ boundaries of any community".
10. Statement of how utilities will be provided to the development, including names of utility companies, i.e. water, sewer, power, etc. If not available, a statement so indicating shall be placed on the plat.
11. Description of monument used to mark all boundary, lot and block corners, and all points of curvature and tangency on street rights-of-way.
12. Acknowledgement and certificate of dedication by the Owner (see Appendix C).
13. Certificate of Road Maintenance (see Appendix H).
14. Certificate of County Approval (see Appendix I).
15. Certificate of Recording (see Appendix D).
16. Water Supply Certification (see Appendix E).
17. Certificate of Surveyor (see Appendix F).
18. Certificate of Engineer (Attendance may be required) (see Appendix G).

In addition, the subdivider shall submit with the Final Plat the following:

1. Proposed restrictive covenants, if any.
2. Tax Certificate showing all taxes are currently paid on the property to be subdivided. These would include Rollback Tax Receipts if applicable.
3. The Proposed Articles of Incorporation and By-Laws of the Homeowner's Association or other entity responsible for road maintenance in the event the subdivider proposes to use privately maintained roads.
4. Construction Plans of all required streets and drainage improvements.
5. Road Construction Security as specified herein.
6. A receipt from the Clerk's Office, showing the Preliminary Plat fees have been paid.
7. When lots equal or exceed 25 acres in size, the approval of Preliminary Plats and Final Plats shall be excused. However, a plat containing a map of the Subdivision shall be filed with the County Clerk, along with the filing fees, as required and shall contain the following language "*This plat has been filed as an exception to the Blanco County Subdivision Regulations as provided under **Excluded Transactions, Item 5** and is to be used for addressing, appraisal, and general information only. The Blanco County Commissioners Court has not approved this plat and does not attest to its accuracy. It is not to be considered for reliance. Blanco County is not liable for misuse or misinterpretation of any data on this plat*". All street names must be approved by the 911 Addressing office **PRIOR** to filing. Copies of the final plat must be provided to the 911 Addressing office and the Appraisal District. The fee for filing an otherwise exempt plat is Two Hundred dollars (\$200.00) per plat up to 5 plat pages, each page thereafter being Twenty-five dollars (\$25.00) per plat page. This plat shall be of Mylar, with black ink on white material. A copy of the Restrictive Covenants, if any, shall be attached.
8. A sign-off for Texas Department of Transportation to approve road access is required.

REVISION TO PLAT

The Owner of an existing lot or lots in a platted recorded subdivision may apply for revision of the subdivision plat. Upon receipt of a written application for the revision, the Commissioners Court will provide for notice of the requested revision as set out in Section 232.009 of the Texas Local Government Code. The application (Appendix L) shall include a revised plat or part of a plat that indicates changes made to the original plat.

After all required notices have been made, the Commissioners Court may adopt an Order to permit the revision of the subdivision plat if upon finding that:

1. the revision will not interfere with the rights of any other subdivision owner,
or
2. each owner who's rights have been interfered with has agreed to the revision.

Upon approval by the Commissioners Court, the revised plat shall be filed with the County Clerk in the Blanco County Map and Plat Records.

A Revision of Plat fee of Fifty dollars (\$50.00) per plat plus Five (\$5.00) dollars per plat for Records Preservation fee, One (\$1.00) dollar per plat for Courthouse Security Fee, and Five Hundred (\$500.00) dollars per plat Hydrological review of Water Availability (unless waived by variance) shall be paid at the time of application. Blanco County will assess an additional fee equal to the cost of notice for publication and/or certified letters. All fees shall be paid prior to Commissioners Court approval.

DESIGN STANDARDS

LOTS

The following information on lots is required in order to meet the requirements of the Blanco County On-Site Sewage Facility Regulations as approved by the Texas Commission on Environmental Quality:

The type of development and use contemplated will determine the size, width, depth, shape, and orientation of tracts or lots. Tracts or lots shall be appropriate for the area of the County, and the type of development contemplated.

1. When a private water well and an approved on-site sewage facility is used, the tract size shall be a minimum of five (5) acres to lessen the accidental contamination of adjacent water wells.
2. When a TCEQ approved public ground water supply system and an approved on-site sewage facility is used, the lot or tract size shall be a minimum of three (3) acres in size, to limit the possible accidental contamination of public water supplies.

If the subdivider selects to use a TCEQ approved public ground water or surface water system and/or a TCEQ approved sewage system, all infrastructure costs shall be the sole responsibility of the subdivider, and shall be included in the guarantee of performance bond to be posted with the County Judge.

Well and Septic Set Back Lines shall be at least fifty (50) feet from the property lines on all sides and in every dimension.

THE SET BACK LINES DENOTED ABOVE ARE A REQUIREMENT OF THE BLANCO COUNTY SEWAGE FACILITY REGULATIONS.

EASEMENTS

Utility Easements. In residential areas, easements shall be provided for installation of utilities. Any other requirements will be determined by the Commissioners Court.

Drainage Easements. Where the subdivision is traversed by a water course, drainage way, channel or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines for such water course and of sufficient width to convey all storm and flood water flowing through as may be determined by the Commissioners Court through its authorized representative, to accommodate further width or construction and allow access for maintenance.

ROADWAYS

Approval of a subdivision plat by the Blanco County Commissioners Court does not constitute acceptance of the roads shown thereon.

All roads, whether maintained by the County, by the individual property owners, or by a homeowners association, shall be constructed at the subdivider's expense in accordance with these Regulations and shall be classified as one of the two following types of roads:

- a. Publicly dedicated, paved and to be maintained by Blanco County after Commissioners Court acceptance for maintenance with construction in accordance with the Specifications outlined in these Regulations.
- b. Private, paved and to be maintained by a Homeowners Association or property owners in perpetuity (or until constructed to the then applicable County standards for acceptance of maintenance, and accepted for maintenance by the Commissioners Court) and constructed in accordance with the Specifications outlined in these Regulations.

All roads and streets will not receive consideration for final approval by Commissioners Court until at least **two (2) years** after original construction of streets and roads are completed. In Subdivisions in which insufficient development or building has taken place after the two-year period and where there has been insufficient use of the streets and roads to insure their stability, then such streets and roads will not be accepted by the Commissioners Court, until such time as there is sufficient development to insure street and road stability. Sufficient development shall be defined as fifty percent (50%) occupancy of the total lots or tracts within said subdivision. Upon final approval, title to all streets and roads shall be conveyed to the County for their maintenance by a Warranty Deed, or Grant of Right-of-Way, which shall be acceptable to the Commissioners Court. Accompanying such deed shall be an adequate description of streets and roads, either by reference to the approved subdivision plat or by field notes prepared by a Registered Professional Engineer from a survey made on the ground. **From the date of adoption of this Order forward, all streets and roads in any subdivision for which a plat has**

been filed shall adhere to the Road Construction Specifications which follow, whether or not an eventual request for County maintenance is planned.

In subdivisions that are developed as “gated communities”, it is the responsibility of the subdivider, property/homeowners association and/or the individual property owners to provide a means of access to emergency responders.

Road Construction Specifications. (see Appendix N and Bond Requirements)

Streets or roads as defined herein:

Minimum right-of-way.....	60 feet
Minimum crown width of roadway.....	30 feet
Minimum width of base material.....	26 feet
Minimum depth of compacted base material at crown.	6 inches
Minimum height at crown.....	6 inches
Minimum height of base at shoulder.....	6 inches
Minimum width of surface.....	20 feet
Minimum width of curbed section, when curbed.....	36 feet
Minimum type surface - Pavement surface shall be 1 ½” thick A.C. Pavement or ¾” inch thick 2 course penetration pavement or approved equal	

Base material used for roads or streets shall be crushed limestone. Sub-base material may be locally obtained caliche and should be formed so that a 6” center crown (6” higher than the shoulders) is maintained when 6” of crushed limestone base material is uniformly applied.

The entire right-of-way will be cleared of all timber, roots, brush, fences, boulders, or other obstructions, unless a variance is granted by the Commissioners Court. Upon completion of all construction, the right-of-way shall be seeded with native grasses, or other plants as approved by the Commissioners Court.

Subgrade. The subgrade shall be compacted by ordinary compaction by any method, type, and size of equipment which will give the required compaction. The subgrade must be inspected and approved by the Commissioners Court, or the individual Commissioner for that precinct or his designated representative prior to any application of base material.

Base Material. Base Material shall be delivered in vehicles of uniform capacity and it shall be the responsibility of the Contractor that the required amount of the specified material shall be delivered in each 100 feet station. The material shall be scarified, thoroughly wetted, mixed, manipulated, and bladed so as to secure a uniformly wetted material and pulled in over the surface in courses and set under the action of blading and rolling. All irregularities, depressions, or weak spots which develop shall be corrected immediately by scarifying the area affected, adding suitable material as required, reshaping and recompacting by sprinkling and rolling. The base must be inspected and

approved by the Commissioner for that precinct or his designated representative prior to the application of any surface treatment.

Drainage. Generally, it is desired that surface drainage from private property be taken to roads and streets or drainage courses as quickly as possible, but the practice of using roads and streets as major drainage courses is prohibited.

Design of channels shall consider velocities and shall be shaped, graded, lined, or protected to minimize or prevent scour and erosion from excessive velocities. This requirement shall extend to roadside drainage ditches often called 'bar' ditches. Seeding of native grasses or other plants as approved by the Commissioners Court, shall be required to deter erosion.

All drainage structures shall be of permanent type, either concrete or metal. Drainage calculations shall be made using Talbot's Formula or other methods satisfactory to the Commissioners Court. Drainage structures shall be designed using a ten (10) year flood frequency. The size of the culverts shall be subject to the approval of the Commissioners Court, but under no circumstances shall they be less than twenty-four (24") inches in diameter.

All roadways crossing streams or roadways subject to flooding must be rip-rapped on both sides as specified by the County. Concrete used as rip-rap must test 2500 psi.

Cattle Guards. The Commissioner in whose precinct the subdivision is located may authorize the installation of cattle guards. When permitted, a cattle guard shall not be less than six (6) feet in length, measured along the centerline of the road, and of width not less than two (2) feet greater than the width of the pavement or a maximum width of twenty (20) feet. Units may be prefabricated or welded in place and shall be built to support any and all traffic that may be encountered on said roadway.

Inspections. Proposed roads and drainage will be inspected by an authorized representative of the Commissioners Court and at intervals as directed by the Commissioners Court. The expense of these inspections will be the responsibility of the subdivider.

Other Provisions. In a subdivision where water lines or other utilities are installed on rights-of-way, they shall be located off and away from the roadways (paved center portion and shoulders). Fire hydrants shall be equipped with connections compatible with local Fire Department equipment.

After roads and streets have been dedicated to and accepted by Blanco County so that future maintenance responsibilities become a function under the Blanco County Commissioners Court, the installation of any further water or utility lines, side roads, etc. on right-of-way shall be prohibited unless expressly permitted in writing by the Commissioners Court. See Appendix J: Permit to Construct Within Right-of Way, and Appendix M: Notice of Proposed Utility Line Installation.

Subdivisions must have control signs, guardrails, and other safety features installed at required locations on all subdivision rights-of-way dedicated for public use. Culverts and bridges shall be at least as wide as the roadway portions (pavement and shoulders) of the streets and roads. Bridge abutments or other drop-offs located at the edge of the shoulder portions of any road or street shall be indicated by installation of protective posts or other devices equipped with reflectorized markers.

Right-of-way dedicated to public use shall be kept clear of tall weeds and brush so that property lines, drainage ditches, and hazardous conditions shall be readily distinguishable. Large trees which lend natural beautification to an area may be left in place on a right-of-way provided that safety on the streets and roads is not impaired.

The installation of any traffic control sign, such as denoting speed limits, yield right-of-way, stop signs, stop ahead signs, etc., shall be coordinated with the precinct Commissioner concerned and with the Blanco County Sheriff's Department, which shall have control of law enforcement activities on all roads, streets, and thoroughfares dedicated to public use in subdivisions in Blanco County whose roads have been accepted by the County. Speed limit designations of public streets should be assigned in accordance with street and road conditions, but under no circumstance shall speed limits exceed thirty (30) miles per hour. Thoroughfares not dedicated to public usage shall be clearly marked as such.

In cases where the new roads and streets as platted intersect with established roads and streets, the new roads and streets shall be, if practicable, a continuation without offset of any intersecting road or street on the opposite side of said established road or street.

Adequate off-street parking space must be provided in business or commercial areas.

Rural Addressing Signage. The initial expense of street sign placement in new subdivisions shall be the responsibility of the subdivider, with sign type and location in compliance with County standards and approved by the Blanco County Commissioners Court as part of acceptance of the subdivision plat.

BLANCO COUNTY WATER AVAILABILITY REGULATIONS

Provisions

These regulations are adopted pursuant to Section 35.019 of the Texas Water Code and Section 232.0031 of the Local Government Code, Vernon's Annotated Statutes.

The Blanco County Commissioners Court has determined that the adoption of Water Availability Regulations are necessary to prevent current and/or projected water use in Blanco County from exceeding the safe sustainable yield of the County water supply.

These regulations are adopted as an amendment to Blanco County Subdivision Regulations adopted January 26, 1998.

THE BLANCO COUNTY COMMISSIONERS COURT MAKES NO REPRESENTATION OR WARRANTY, EITHER EXPRESS OR IMPLIED, THAT SUBDIVISIONS THAT COMPLY WITH THESE WATER AVAILABILITY REGULATIONS WILL MEET THE CURRENT AND/OR FUTURE WATER NEEDS OF PURCHASERS OF PROPERTY WITHIN THE SUBDIVISION.

Definitions.

The following words and terms, when used in these Regulations, shall have the following meanings. Words defined in the main body of the Blanco County Subdivision Regulations, and not defined here, shall have the meanings provided therein.

1. "Full build-out" - means the final expected number of residences, business or dwellings in the proposed subdivision;
2. "Groundwater" - has the meaning assigned to it by the regulations of the Texas Commission on Environmental Quality (TCEQ);
3. "Public water supply system" - has the meaning assigned to it by the regulations of the Texas Commission on Environmental Quality (TCEQ);
4. "Qualified expert" - means a Hydrologist, a registered professional engineer, or a registered professional geoscientist;
5. "Surface water" - has the meaning assigned to it by the regulations of the Texas Commission on Environmental Quality (TCEQ);
6. "TCEQ" - means the Texas Commission on Environmental Quality;

7. "TWDB" - means the Texas Water Development Board.

Applicability.

These Water Availability Regulations apply to all applications for approval of a plat for a Subdivision wholly or partially within Blanco County, Texas, pursuant to the Blanco County Subdivision Regulations, except as exempted hereafter.

Exemptions to Water Availability Regulations:

- a. Subdivision of property where platting is not required by the Blanco County Subdivision Regulations;
- b. Subdivision of property in which all lots are 25 acres or greater.

Water Availability data shall be presented to the Commissioners upon submission of the Preliminary Plat.

Blanco County shall have the Water Availability data review by a qualified expert on behalf of Blanco County.

Requirements for Subdivisions to be served by Private Water Wells

The Preliminary Plat submission to the Commissioners Court for a proposed subdivision whose water supply will be private water wells shall include Water Availability data. This Water Availability data shall be derived from a minimum of two wells (one test well and one monitor well). There shall be 1(one) set of Test-Monitor wells for each 100 acres. The use of existing wells is permitted if the existing well complies with these regulations.

The following Water Availability data is required:

1. Map of the proposed subdivision prepared by a qualified expert identifying:
 - a. geological formations;
 - b. location of test and monitor wells by longitude and latitude;
 - c. available information on wells identified in the files of the Texas Water Development Board and TCEQ and otherwise known to applicant within 1,000 feet of the boundaries of the proposed subdivision (including well depth, depth to water yield and estimated yield).
2. The static water level to the nearest 0.1 foot and equate to the mean sea level elevation.

3. Data resulting from the performance of an aquifer pump test utilizing proven methods recommended by TWDB and TCEQ of the karst aquifer systems of the Texas Hill Country. The pump test shall be supervised by a qualified expert and shall be performed prior to any acidization or other flow capacity treatment of the well. The duration of the pump test shall be for a period of 24 hours or until the water level has stabilized (less than 0.1 fluctuation) in the test well for period exceeding two hours.
4. Statement by a qualified expert based on the pump test:
 - a. estimated yield of wells proposed for the subdivision;
 - b. determination of transmissivity of the water-bearing formation or strata from which the groundwater will be withdrawn;
5. Certification by a qualified expert that an adequate supply of water of sufficient quantity and quality to supply the subdivision at full build-out based on number of connections. Formula: number of connections x 3.5 x 100 x 365 days.

The following statement shall appear on the final plat for the approved subdivision:
“This subdivision will be served by individual groundwater wells. Information on the available supply of groundwater and its quality is available to prospective purchasers of lots in this subdivision in the office of the County Clerk of Blanco County, Texas.”

Requirements for Subdivisions to be served by Existing Public Water Supply System

The Preliminary Plat submission to the Commissioners Court for a proposed subdivision whose water supply will be an Existing Public Water Supply System shall include Water Availability data.

1. Map of the service area of the Existing Public Water Supply System, showing the location of the proposed subdivision in relationship to the service area of the Existing Public Water Supply System;
2. Name, address, phone number, authorized agent and TCEQ facility number of the Existing Public Water Supply System;
3. Certification by a qualified expert that an adequate supply of water of sufficient quantity and quality to supply the subdivision at full build-out based on water use standards recognized by TCEQ and TWDB.

The following statement shall appear on the final plat for an approved subdivision:
“*This subdivision will be served by Name and address of Existing Public Water Supply System. Information on the available Existing Public Water Supply System is available to prospective purchasers of lots in this subdivision in the office of the County Clerk of Blanco County, Texas and be stated in the deed restrictions.*”

Requirements for Subdivisions to be served by a New Public Water Supply System

The Preliminary Plat submission to the Commissioners Court for a proposed subdivision whose water supply will be a New Public Water Supply System relying wholly or partially on groundwater or surface water shall include Water Availability data. This Water Availability data shall be derived from a minimum of two wells (one test well and one monitor well). There shall be 1 set of Test Monitor wells for each 100 acres. The use of existing wells is permitted if the existing well complies with these Regulations.

1. Map of the proposed subdivision prepared by a qualified expert identifying:
 - a. geological formations;
 - b. location of test and monitor wells by longitude and latitude;
 - c. available information on wells identified in the files of the Texas Water Development Board and TCEQ and otherwise known to applicant within 1,000 feet of the boundaries of the proposed subdivision (including well depth, depth to water yield and estimated yield).
2. The static water level to the nearest 0.1 foot and equate to the mean sea level elevation.
3. Data resulting from the performance of an aquifer pump test utilizing proven methods recommended by TWDB and TCEQ of the karst aquifer systems of the Texas Hill Country. The pump test shall be supervised by a qualified expert and shall be performed prior to any acidization or other flow capacity treatment of the well. The duration of the pump test shall be for a period of 36 hours or until the water level has stabilized (less than 0.1 fluctuation) in the test well for a period exceeding two hours.
4. Statement by a qualified expert based on the pump test;
 - a. estimated yield of wells proposed for the subdivision;
 - b. determination of transmissivity of the water-bearing formation or strata from which the groundwater will be withdrawn;
 - c. source of surface water supply and estimated yield of surface water source and proof of compliance that withdrawal of surface water complies with state and federal laws.

5. Certification by a qualified expert that an adequate supply of water of sufficient quantity and quality to supply the subdivision at full build-out based on number of connections. Formula: number of connections x 3.4 x .6 x 100 x 365 days.

The following statement shall appear on the final plat for an approved subdivision:
“This subdivision will be served by Name and address of New Public Water Supply System. Information on the New Public Water Supply System is available to prospective purchasers of lots in this subdivision in the office of the County Clerk of Blanco County, Texas and be stated in the deed restrictions.”

PERMIT TO CONSTRUCT WITHIN
COUNTY ROAD RIGHT-OF-WAY**

Applicant: _____

County Road Name _____

Address: _____ Permit # _____

_____ Phone No. () _____

I, Commissioner _____ of Blanco County, Texas, authorize
_____, hereinafter called the grantee, to
(re)construct an access driveway on the County road right-of way abutting County Road
Name _____ in Blanco County, Texas, located
at _____.

SUBJECT TO THE FOLLOWING:

1. The Grantee is responsible for the culvert costs and installation.
2. Design of facilities shall be as shown on the sketch on page 2.
3. All construction and materials shall be subject to inspection and approval by the County.
4. The County reserves the right to require any changes, maintenance or repairs as may be necessary to provide protection of life or property on or adjacent to the County road. Changes in design will be made only with approval of the County.
5. The Grantee shall hold harmless the County and its duly appointed agents and employees against any action for personal injury or property damage sustained by reason of the exercise of this permit.
6. The grantee shall not erect any sign on, or extending over, any portion of the County road right-of-way.

7. Vehicle service fixtures such as fuel pumps, fuel tanks, vendor stands, etc., shall be located at least 12 (twelve) feet from the right-of-way line to insure that vehicles being serviced from these fixtures will be off the County road.
8. Entrances must be constructed in such a way as to keep obstructions from being present in the right-of-way.
9. Mail boxes must be mounted on break away stands and be located so that boxes may be serviced and used from off the pavement.
10. This permit will become null and void if the above referenced driveway facilities are not constructed within six (6) months from the issuance date of this permit.
11. The grantee will contact the Court's representative _____ at telephone number (830) _____ at least twenty-four (24) hours prior to beginning construction which is authorized by this permit.

DATE OF ISSUANCE: _____

ROAD ADMINISTRATOR: _____

The undersigned hereby agrees to comply with the terms and conditions set forth in this permit for construction of an access driveway on the County road right-of-way.

(Attach Lienholder's Acknowledgement, Appendix K)

IF REVISED PLAT INCLUDES ANY CHANGES TO AN EXISTING UTILITY EASEMENT, RELEASE OF SAID EASEMENTS BY THE UTILITY PROVIDER(S) IS REQUIRED BEFORE APPROVAL OR FILING OF SAID PLAT.

NOTICE:

In compliance with the Blanco County Subdivision Regulations requiring notice as set out in Texas Local Government Code §232.009, the County shall publish notice of this intent to revise a subdivision plat in a newspaper of general circulation in the County at least three (3) times. If all or part of the subdivided tract has been sold to nondeveloper owners, the County shall give written notice to each of those owners by certified or

registered mail, return receipt requested. If this proposed revision to the subdivision plat does not affect a public interest as described in Local Government Code §232.009(c-1)(1), the County shall be required to provide written notice of the application to the owners of only the lots that are within 200 feet of the proposed plat revision. The County is not required to give notice by mail if the plat revision only combines lots. The County will impose a fee to the applicant for the cost of processing the application including the publishing of newspaper and mail notices. This processing fee will be separate from the filing fee and shall be paid prior to the filing of the plat revision.

By affixing my signature below, I certify that I am the owner of the described property and I hereby request to revise the plat of the described property. I further certify that any and all lienholders have acknowledged this revision as per the attached Lienholder's Acknowledgement. I agree to pay any and all processing fees as described in the notice on page one of the application.

By initialing this box I certify that I am requesting this revision to only combine existing lots without interfering with the rights of any other property owner.

BLANCO COUNTY CLERK

**NOTICE OF PROPOSED UTILITY LINE INSTALLATION
BLANCO COUNTY RIGHT OF WAY AND PERMIT**

TO: Commissioner _____
Precinct No. _____

Address

Formal Notice is hereby given that _____ proposes to place a _____ line within the right of way of County Road _____ as follows: (list location, length, general design, etc.)

Installation will begin on or after the _____ day of _____, 200__.

The line will be constructed and maintained on the road right-of-way as directed by Blanco County Commissioner Precinct No. _____.

The location and description of the proposed line is more fully shown on the attached drawings.

Applicant will insure that traffic control measures complying with applicable portions of the Texas Manual of Uniform Traffic Control Devices will be installed and maintained during the installation.

If the proposed installation is a parallel installation, the installation shall be located _____ feet within the edge of the right-of-way and at least _____ feet in depth, unless otherwise approved by the County.

_____The installation shall not damage any portion of the road and adequate provisions must be made to cause minimum inconvenience to traffic and adjacent property owners during installation.

OR

_____The installation shall damage a portion of the road. Applicant will return the road to its pre-installation condition at Applicant’s expense within _____ days of

installation. During installation adequate provisions must be made to cause minimum inconvenience to traffic and adjacent property owners during installation.

Applicant agrees that any damages sustained to the line installed under this proposal as a result of road construction and/or maintenance, including but not limited to mowing, ditch cleaning, culvert repair or replacement, roadway excavation, and base work shall be the sole burden and expense of the owner of the utility line.

Applicant agrees to give Blanco County Commissioner Precinct No. _____ days prior notice of any routine or periodic maintenance which requires interruption of traffic and pruning of trees within the road right-of way. County may provide specifications for the extent and methods governing trimming, cropping, tree balance, type of cuts, painting cuts, and clean up.

Applicant agrees that Blanco County does not purport to grant any right, claim, title or easement in or upon this road and Applicant further agrees that Blanco County may require owner to relocate line, subject to provisions of governing laws, upon the giving of _____ days written notice.

In the event Applicant fails to comply with any of the requirements as set forth above, Blanco County may take such action as it deems appropriate to compel compliance

Additional Special Provisions:

By signing the above I certify that I am authorized to represent Applicant and that Applicant agrees to be bound by the provisions of the Notice and Permit.
